TEG1124P-24-250W je Tenda PoE switch koji nudi 24 10/100/1000 Mbps Base-TKS RJ45 portova. Portovi 1-24 su u skladu sa IEEE 802.3af standardom (maksimalna PoE snaga: 15,4W) i 802.3at standardom (maksimalna snaga PoE: 30W). Switch nudi maksimalnu izlaznu snagu od 225W i može da napaja i razmenjuje podatke sa AP, IP kamerama i IP telefonima preko CAT5 kablova. Omogućava i jednostavne načine upravljanja kao što su CCTV, VLAN i izolacija kako bi se smanjili troškovi kablova IP terminala kao što su AP i IP kamere.

Port Features: Standard: the switch functions as a common unmanaged switch and all the ports of the switch can communicate with each other.

CCTV: the port cache is optimized and PoE ports 1-8 have higher priorities

over the other ports. All the ports of the switch can communicate with each other.

VLAN: ports 1 to 22 are isolated from each other, but can communicate with ports 23 and 24(uplink ports) respectively.

Isolation: ports 1 to 12 and Ports 13 to 24 belong to two different VLAN. This mode can be used to isolate supervision network and wireless network to make them not interfere with each other.
