Features

Features	<p>Optimized for NAS with AgileArray. AgileArray enables dual-plane balancing and RAID optimization in multi-bay environments, with the most advanced power management possible.</p> <p>Actively protect your NAS with IronWolf Health Management focusing on prevention, intervention, and recovery.</p> <p>High performance means no lag time or downtime for users during workload traffic for the NAS. Seagate leads the competition with the highest-performing NAS drive portfolio.</p> <p>Rotational Vibration (RV) sensors. First in its class of drives to include RV sensors to maintain high performance in multi-drive NAS enclosures.</p> <p>Range of capacities up to 16TB. More capacity options means more choices that will fit within the budget. Seagate provides a scalable solution for any NAS use-case scenario.</p> <p>Do more in multi-user environments. IronWolf provides a workload rate of 180TB/year. Multiple users can confidently upload and download data to the NAS server, knowing IronWolf can handle the workload, whether you are a creative professional or a small business.</p> <p>Designed for always-on, always-accessible 24x7 performance. Access data on your NAS any time, remotely or on site.</p> <p>1M hours MTBF represents an improved total cost of ownership (TCO) over desktop drives with reduced maintenance costs.</p>
