

## Kućište Fractal Design Define Mini C Black Tempered Glas, FD-CA-DEF-MINI-C-BK-TG

Šifra: 60625  
Kategorija proizvoda: Kućišta  
Proizvođač: Fractal Design

**Cena: 6.190,00**

|                               |                                                                                                                                                                                                 |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Model                         | FD-CA-DEF-MINI-C-BK-TG                                                                                                                                                                          |
| Tip                           | Mid-Tower                                                                                                                                                                                       |
| Podržane ploce                | E-ATX (max 285 mm)/ ATX / mATX / Mini-ITX                                                                                                                                                       |
| 3.5"/2.5"                     | 2+3                                                                                                                                                                                             |
| 5.25" ODD                     | 0                                                                                                                                                                                               |
| Prednji interfejs             | 2 USB 3.0, Audio in/out, Power button with LED, HDD activity LED, Reset button                                                                                                                  |
| Ukupno mesta za ventilatore   | 9 x 120/140 mm                                                                                                                                                                                  |
| Ugradjeni Ventilatori         | Napred 1x Dynamic X2 GP-12,nazad x Dynamic X2 GP-12                                                                                                                                             |
| Filteri prasine               | DA                                                                                                                                                                                              |
| Providna stranica             | DA                                                                                                                                                                                              |
| Napajanje duzine do:          | Do 175 mm                                                                                                                                                                                       |
| Duzina Graficke karte do:     | Do 315mm                                                                                                                                                                                        |
| Visina CPU hladnjaka do:      | 185 mm                                                                                                                                                                                          |
| Podržani AIO hladnjaci        | Napred do 280mm, na vrhu do 240mm, nazad do 120mm                                                                                                                                               |
| Dimenzije                     | 399 x 212 x 399 mm                                                                                                                                                                              |
