Series Overview

Industrial Optical Module Series is a hot-pluggable device with a unique sturdy design. Developed to adapt to even the harshest of environments, it has a wide operating temperature range and is Plug and Play (PnP).

Scene

This Series is widely used in various broadband data transmission scenarios, such as in intelligent traffic, telecom, security, finance, custom, shipping, electricity, water conservancy and oil fields. It is also suitable for work with switches and other devices.

Functions

Wide Operating Temperature

Developed to operate in extreme conditions, the device functions in temperatures ranging from -40 °C to +85 °C, easily adapting to harsh environments.

Plug and Play

No configuration is required. Suitable for terminal connection
