

Legion T5 30IAS10 (Eclipse Black) 20-Core Ultra 7  
265KF 3.6-5.5GHz/36MB, 64GB DDR5, 1TB-M.2-  
NVMe, RTX-5070/12GB 3xDP+1xH ( 90YA000XRM  
)

No Image Available

Šifra: 94994

Kategorija proizvoda: Računari i radne stanice

Proizvođač: LENOVO

Cena: 270.520,00

|                                                   |                                                                                                                                                                       |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hard disk ugrađena memorija:                      | 1TB SSD M.2 2280 PCIe® 4.0x4 NVMe®;                                                                                                                                   |
| Tip grafičke kartice:                             | Neintegrirana                                                                                                                                                         |
| OS:                                               | No OS                                                                                                                                                                 |
| SSDHDD:                                           | 1TB                                                                                                                                                                   |
| Processor:                                        | Intel Core Ultra 7                                                                                                                                                    |
| RAM.:                                             | 64 GB                                                                                                                                                                 |

| Ostalo:                                           | Legion Logo Lighting,<br>Transparent Cover + Inner<br>Decorate Cover, PCH Heatsink +<br>3x SSD Heatsink + VRM Heatsink<br>+ 150W airflow 120MM-Fan with<br>ARGB light |
| Masa :                                            | 17 kg                                                                                                                                                                 |
| Operativni sistem:                                | Bez operativnog sistema                                                                                                                                               |
| Display:                                          | Bez monitora                                                                                                                                                          |
| Slotovi:                                          | 1x PCIe 3.0 x4; 1x PCIe 5.0 x16;<br>4x M.2 slots (one for WLAN,<br>three for SSD);                                                                                    |
| Miš:                                              | nema miš                                                                                                                                                              |
| Tastatura:                                        | nema tastaturu                                                                                                                                                        |
| Prostor za optičke uređaje HDD<br>čitače kartica: | 1x 3.5", 1" high, internal, std<br>disk;                                                                                                                              |
| Optički uređaj:                                   | Nema                                                                                                                                                                  |
| Mrežna konekcija:                                 | 2.5GbE, Realtek RTL8125BG<br>Gaming Ethernet;                                                                                                                         |
| Audio:                                            | High Definition (HD) Audio,<br>Realtek® ALC623-CG codec, no<br>speakers;                                                                                              |
| Portovi napred:                                   | combo audiomicrophone jack<br>(3.5mm); 1x USB-C® (USB<br>5Gbps USB 3.2 Gen 1); 1x USB-A<br>(USB 5Gbps USB 3.2 Gen 1);                                                 |
| Graficka karta:                                   | NVIDIA® GeForce RTX™ 5070<br>12GB GDDR7                                                                                                                               |
| PSU:                                              | 500W 85%                                                                                                                                                              |
| Forma kućišta i dimenzije:                        | Tower (30L);                                                                                                                                                          |
| Chipset:                                          | Intel® B860 Chipset                                                                                                                                                   |
| RAM memorija:                                     | DDR5-5600; 64GB; DDR5-6400;                                                                                                                                           |

4x DDR5 UDIMM slots, dual-channel capable;

Procesor : Intel® Core Ultra 7 265KF, 20C (8P + 12E) 20T, Max Turbo up to 5.5GHz, 36MB

Portovi nazad: Ethernet (RJ-45); 3x audio out (5.1 channel); 1x USB-C® (USB 10Gbps 3.2 Gen 2); 2x USB-A (USB 5Gbps USB 3.2 Gen 1); 4x USB-A (Hi-Speed USB USB 2.0);
